

StockLink

bl barcode LOGIC
hardware and software solutions

Fast, accurate stocktaking.

**With Stocklink in your hands, there is
always light at the end of the stock pile.**

StockLink

KNOW YOUR STOCK VALUE.

ABOUT StockLink

StockLink is a stocktaking system which uses barcode scanning to increase the speed and accuracy of stock counting.

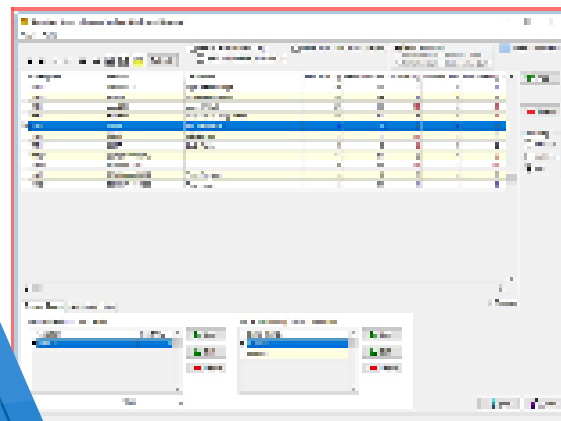

The system has been designed to work with any POS, WMS, accounting or other stock database system that can export and import item data in a text file format (.TXT or .CSV).

It may also be used as a basic standalone stock control system.

StockLink uses its own PC based database of stock items which can be created manually or populated from a CSV (Comma Separated Value) or TXT file that has been exported from a host system.

StockLink FEATURES

- ◆ STOCKTAKING, USE YOUR EXISTING EXCEL OR CSV DATA
