## BARCODE LABEL PRINTING MADE EASY.

### ABOUT BarPrint

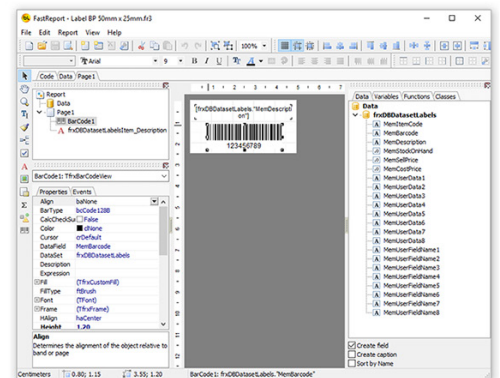

BarPrint is a simple barcode label printing application.

It uses its own database of items which can be created manually or populated from a CSV (Comma Separated Value) or TXT (text) file that has been exported from a spreadsheet or other accounting or inventory system.

BarPrint includes a range of standard label formats that you can choose from, but it also includes a label designer which allows you to design your own label of any size and include any information that is in the database on the label.

### BarPrint FEATURES

- ◆ LOW COST — FAST RETURN ON INVESTMENT
- ◆ EASY TO USE — MINIMAL TRAINING AND SETUP REQUIRED
- ◆ ABILITY TO PRINT TO ALL PRINTERS COMPATIBLE WITH MICROSOFT WINDOWS, INCLUDING THERMAL, INK, LASER AND SPECIALITY PRINTERS.
- ◆ MINIMIZE MANUAL DATA ENTRY BY USING DATA FROM EXISTING SPREADSHEETS, TEXT FILES OR DATABASES USING 'CSV' FILE IMPORT.
- ◆ BUILT IN LABEL DESIGNER, TO ENABLE EASE OF DESIGNING YOUR OWN UNIQUE LABEL
- ◆ TEMPLATE DESIGN AVAILABLE ON REQUEST
- ◆ FULLY AUSTRALIAN OWNED, SUPPORTED AND IS DEVELOPED HERE WITH DECADES OF LOCAL EXPERIENCE IN MOBILE DATA CAPTURE SYSTEMS
