EDUScan

DATA COLLECTION MADE EASY.

ABOUT EDUSCAN

EDUScan is a mobile system that increases the speed and accuracy of data collection by scanning barcodes.

EDUScan Starting Package consists of:

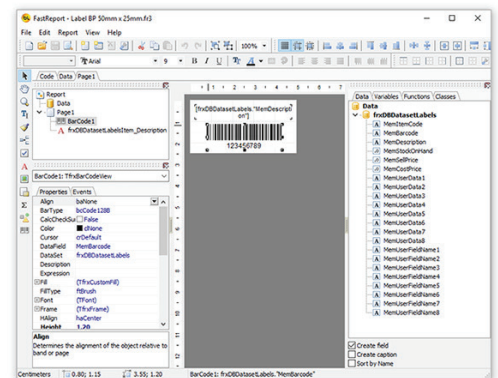

- Business Label Printer.
- Data collection Scanner to link rooms and equipment to each room.
- EDUScan PC Software featuring Barcode Printing and Design, Importing of Data and Communication between the PC and the Scanner.

It uses its own database of items which can be created manually or populated from a CSV (Comma Separated Value) or TXT (text) file that has been exported from a spreadsheet or other accounting or inventory system.

EDUScan includes a range of standard label formats that you can choose from, but it also includes a label designer which allows you to design your own label of any size and include any information that is in the database on the label.

WHY CHOOSE EDUScan

- ◇ EASY TO USE — MINIMAL TRAINING AND SETUP REQUIRED
- ◇ ABILITY TO DOWNLOAD YOUR ASSET ITEMS LOOKUP FILE FROM YOUR EXCEL FILE
